## **PPRE Peroleh Kontrak Baru Rp1,5 Triliun Hingga April 2022**

**Jakarta, 17 Mei 2022** – Bulan April 2022 PT PP Presisi Tbk (PPRE) menambah perolehan kontrak baru sebesar Rp500miliar sehingga sampai dengan April 2022, Perseroan telah mengantongi total perolehan kontrak baru mencapai Rp1,5triliun. Total perolehan tersebut didapat antara lain dari proyek Addendum Hauling Services Weda Bay Nickel (WBN), Pembangunan Jalan Empu Nala Mojokerto (PUPR), Revitalisasi Bandara Halim (WIKI), Pembangunan Jalur Kereta Api Elevated Sumut Binjai (Kemenhub), Pembangunan Cimanggis Warehouse (TOTAL), Pekerjaan Timbunan Pasir Semarang Demak Seksi II (PTPP) dan Pembangunan Jalan Tol Serang Panimbang (SRBGC).

“Peningkatan perolehan kontrak baru tersebut meningkatkan optimisme kami dalam meningkatkan kinerja Perseroan secara keseluruhan. Adanya perolehan kontrak baru yang cukup besar tentunya memberikan kepastian dan jaminan bagi kami untuk terus berproduksi. Hingga April ini, 2 lini bisnis utama kami telah mendominasi perolehan pasar yakni 58,57% dari *civilwork* dan 35,13% dari *mining services*. Penambahan kontrak baru pada *civilwork* saat ini mulai banyak kami peroleh dari pasar eksternal sebagai *maincontractor* antara lain seperti pada Proyek Pembangunan Jalan Empu Nala, Tol Serang Panimbang dan KA Sumut Binjai. Sedangkan perolehan kontrak baru dari jasa pertambangan diperoleh dari peningkatan kepercayaan pemberi kerja terhadap kinerja PPRE yaitu dari proyek jasa pengangkutan (*hauling services*) Proyek Weda Bay Nickel”, ungkap Rully Noviandar, Direktur Utama PT PP Presisi Tbk.

Adapun dari segmen pemberi kerja, hingga April 2022, 92,80% segmen pasar Perseroan didominasi oleh pascagrup dan sisanya yakni sebesar 7.20% berasal dari grup (PTPP). Hal ini tentunya diharapkan akan semakin meningkatkan positioning Perseroan dipasar eksternal sekaligus menunjukkan kapabilitas Perseroan untuk bermain sebagai mainkontraktor terutama pada pangsa pasar konstruksi infrastruktur.

“Untuk kuartal kedua di 2022, kami menargetkan tambahan kontrak baru sebesar Rp700 Miliar hingga Rp900 Miliar dengan fokus segmen antara lain pada *civilwork* infrastruktur, *mining development* serta beberapa dari proyek *structurework* yang sedang kami garap. Kami harapkan, perolehan kontrak tersebut dapat menjadi produksi secara optimal dan berkontribusi dalam pencapaian laba perseroan”, tutup Rully.

## **PPRE Gets New Contracts of IDR 1.5 Trillion Until April 2022**

**Jakarta, 17 May 2022** – In April 2022 PT PP Presisi Tbk (PPRE) increased the acquisition of new contracts by Rp500billion so that until April 2022, the Company has pocketed a total acquisition of new contracts of Rp1.5trillion. The total acquisition was obtained, among others, from the Weda Bay Nickel (WBN) Addendum Hauling Services project, the Construction of the Empu Nala Mojokerto Road (PUPR), the Revitalization of Halim Airport (WIKA), the Construction of the North Sumatra Binjai Elevated Railway (Kemenhub), the Construction of the Cimanggis Warehouse (TOTAL. ), Semarang Demak Sand Pile Work Section II (PTPP) and Serang Panimbang Toll Road Construction (SRBGC).

“The increase in the acquisition of new contracts increases our optimism in improving the Company's overall performance. The acquisition of a fairly large new contract certainly provides certainty and guarantee for us to continue producing. As of April, our 2 main business lines have dominated the market gain, namely 58.57% from civilwork and 35.13% from mining services. We are starting to get a lot of new contracts for civil work from external markets as main contractors, such as the Empu Nala Road Development Project, Serang Panimbang Toll Road and the North Sumatra Binjai Railway. Meanwhile, the acquisition of new contracts for mining services was obtained from increasing employer confidence in PPRE's performance, namely from the hauling services project of the Weda Bay Nickel Project,' said Rully Noviandar, President Director of PT PP Presisi Tbk.

As for the employer segment, as of April 2022, 92.80% of the Company's market segment was dominated by the non-group market and the remaining 7.20% came from the group (PTPP). This is certainly expected to further improve the Company's positioning in the external market as well as demonstrate the Company's capability to play as a main contractor, especially in the infrastructure construction market share.

'For the second quarter of 2022, we are targeting additional new contracts of IDR 700 billion to IDR 900 billion with a focus on segments including infrastructure civilwork, mining development and some of the structurework projects we are working on. We hope that the acquisition of the contract can lead to optimal production and contribute to the company's profit achievement,' concluded Rully.
