“PP Presisi Siap Bangun Jalan Angkutan Khusus (*Hauling Road*) Senilai Rp1,5 Triliun”

Jakarta, 13 Januari 2022 – PP Presisi, melalui PT Lancarjaya Mandiri Abadi (LMA), entitas anak, menyatakan kesiapannya untuk membangun Jalan Angkutan Khusus yang membutuhkan investasi hingga sebesar Rp1,5 Triliun. Hal ini terungkap dalam pertemuan antara Manajemen LMA dengan Pemerintah Provinsi Jambi belum lama ini di Jambi.

“Kami siap membantu Pemprov Jambi untuk mengatasi permasalahan kemacetan lalu lintas transportasi batubara yang selama ini masih bercampur dengan lalu lintas transportasi logistik ekonomi serta lalu lintas kegiatan kemasyarakatan”, ujar Rizki Dianugrah, Direktur Operasi LMA usai pertemuan.

“Jalan Angkutan Khusus sepanjang lebih kurang 140 km dengan ROW 30 meter, akan membentang dari Kabupaten Sarolangun hingga ke pelabuhan khusus di Kabupaten Muarojambi. Kelak dengan dibangunnya Jalan Angkutan Khusus ini, akan menjawab kondisi rendahnya volume penjualan batubara akibat dari pembatasan angkutan batubara di jalan umum/publik yang bercampur dengan lalu lintas umumnya, yang menyebabkan tingginya biaya angkutan batubara di Jambi. Jalan Angkutan Khusus ini diharapkan dapat digunakan juga untuk angkutan komoditas kelapa sawit yang berlimpah di provinsi Jambi. Manfaat lainnya dari keberadaan Jalan Angkutan Khusus ini adalah turunya tingkat kecelakaan seiring dengan tertatanya kondisi trafik lalu lintas, yang sebelumnya semrawut akibat bercampurnya trafik lalu lintas komoditas dengan trafik lalu lintas logistik ekonomi serta lalu lintas kegiatan kemasyarakatan, sehingga dengan dipisahkan, akan terasa dampaknya secara langsung kepada masyarakat”, tambah Rizki.

“Dalam pembangunannya, kami akan memperhatikan aspek kelestarian lingkungan hidup, termasuk keberadaan hutan”, tutup Rizki.

“Kami bangga dan akan mendukung rencana pembangunan Jalan Angkutan Khusus yang akan dilakukan oleh LMA, yang semakin mengokohkan positioning PP Presisi sebagai *integrated mining services*”, ujar M. Darwis Hamzah, Direktur Operasi PPRE.

“PP Presisi Ready to Build a Hauling Road (Jalan Angkutan Khusus) Worth Rp 1.5 Trillion”

Jakarta, 13 January 2022 - PP Presisi, through PT Lancarjaya Mandiri Abadi (LMA), a subsidiary, said its readiness to build a hauling road which requires an investment up to Rp1.5 trillion. This was revealed in a meeting between LMA Management and the Jambi Provincial Government recently in Jambi.

"We are ready to help the Jambi Provincial Government to overcome the problem of coal transportation traffic congestion which is still not separated with economic logistics transportation traffic and community activity traffic," said Rizki Dianugrah, Director of Operations of LMA after the meeting.

"The hauling road with a length of approximately 140 km with a ROW of 30 meters will stretch from Sarolangun Regency to the special port in Muarojambi Regency. Later, with the construction of this hauling road, it will answer the condition of the low volume of coal sales as a result of restrictions on coal transportation on public roads with general traffic, which causes high coal transportation costs in Jambi. It is hoped that this hauling road can also be used to transport the abundant palm oil commodity in Jambi province. Another benefit of the existence of this hauling road is the reduction in the accident rate in line with the orderly conditions of traffic, which was previously chaotic due to the mixing of commodity traffic with economic logistics traffic and social activity traffic, so that if separated, the impact will be felt directly to the community," added Rizki.

"In its construction, we will pay attention to aspects of environmental sustainability, including the existence of forests," concluded Rizki.

"We are proud and will support the coal hauling development plan to be carried out by LMA, which further strengthens PP Presisi's positioning as an integrated mining services," said M. Darwis Hamzah, Director of PPRE Operations.
