“PP Presisi Rampungkan Pengaspalan Ulang Sirkuit Mandalika Lebih Cepat”

Jakarta, 10 Maret 2022 – Hari Rabu, 9 Maret 2022 kemarin PP Presisi telah menyelesaikan pengaspalan ulang (*resurface*) *asphalt* di area *maintrack* Sirkuit Mandalika dengan total panjang 1,6 km. Pekerjaan *resurfacing* dilakukan selama 5 hari mulai dari tanggal 5 Maret 2022 hingga 9 Maret 2022. Penyelesaian tersebut lebih awal 1 hari dari target yang ditentukan sebelumnya yaitu pada tanggal 10 Maret 2022.

“Kemarin (Rabu), kami telah menyelesaikan segmen terakhir yakni segmen keempat melalui STA 1+085 hingga 1+283 sepanjang 198 meter. Alhamdulillah seluruh proses berlangsung lancar dan kami dapat menyelesaikannya lebih awal dari waktu yang dijanjikan”, ujar M Darwis Hamzah, Direktur Operasi PT PP Presisi Tbk yang ikut mengawal langsung proses pengaspalan Sirkuit Mandalika.

Sebagai subkontraktor utama pekerjaan Sirkuit Mandalika, PP Presisi memberikan dukungan *resurfacing* dengan mengerahkan alat-alat beratnya yakni 3 unit *Asphalt Finisher*, 6 unit *Vibro Tandem Roller*, 1 unit *Asphalt Distributor* dan 2 unit *Pneumatic Tired Roller*.

“Seperti pada proses konstruksi yang lalu, seluruh proses *resurfacing* ini mulai dari kedatangan material, pengecekan kualitas *asphalt* bitumen hingga pemasangannya pada *track* disupervisi langsung oleh tim R3 (*Road Runway Racetrack*) sebagai *Asphalt Technician Consultant* dari MRK1 dan atas *approval* FIM sehingga dari segi kualitas sudah memenuhi standar yang dipersyaratkan”, tambah Darwis.

Seperti yang diketahui, paska pramusim MotoGP yang berlangsung pada 11 – 13 Februari 2022 lalu, sejumlah pembalap dan tim MotoGP memberikan *feedback* terhadap kondisi *track*. Keluhan tersebut ditindaklanjuti oleh Dorna dan FIM dengan memberikan rekomendasi untuk melakukan pengaspalan ulang disejumlah titik Sirkuit Mandalika. Sirkuit dengan panjang lintasan 4,3 km tersebut kini telah siap untuk dapat menjadi area perhelatan internasional MotoGP pada 18 hingga 20 Maret 2022 mendatang.

“PP Presisi Completes Resurfacing of Mandalika Circuit Ahead”

Jakarta, 10 Maret 2022 – Last Wednesday, March 9, 2022 PP Presisi completed the asphalt resurface at the Mandalika Circuit maintrack area with a total length of 1.6 km. The resurfacing work was carried out for 5 days starting from March 5, 2022 to March 9, 2022. The completion was 1 day earlier than the previously determined target, which was March 10, 2022.

“Yesterday, we completed the last segment, the fourth segment via STA 1+085 to 1+283 along 198 meters. Alhamdulillah, the whole process went smoothly and we were able to finish it earlier than the promised time,” said M Darwis Hamzah, Operations Director of PT PP Presisi Tbk who directly supervised the asphaltting process for the Mandalika Circuit.

As the main subcontractor for the Mandalika Circuit work, PP Presisi provides resurfacing support by deploying its heavy equipment, namely 3 units of Asphalt Finisher, 6 units of Vibro Tandem Roller, 1 unit of Asphalt Distributor and 2 units of Pneumatic Tired Roller.

"As in the previous construction process, the entire resurfacing process starting from material arrival, checking the quality of asphalt bitumen to its installation on the track was supervised directly by the R3 (Road Runway Racetrack) team as Asphalt Technician Consultant from MRK1 and with FIM approval so that in terms of quality it has been meet the required standards”, added Darwis.

As is known, after the MotoGP pre-season which took place on 11-13 February 2022, a number of MotoGP racers and teams provided feedback on track conditions. The complaint was followed up by Dorna and FIM by providing recommendations for re-paving at a number of points in the Mandalika Circuit. The circuit with a track length of 4.3 km is now ready to become an international MotoGP event area from 18 to 20 March 2022.
